

Hope you continue to be safe and healthy.

Owing to the current unforeseen circumstances, we will be implementing the following measures in accordance with Government protocol:

1. Most of our service centre operations are temporarily halted in compliance with Government regulations until further notice. We look forward to resuming our after sales operations as soon as possible once the situation eases.
2. To further provide support without interruption during this period, we have extended our customers' smartphone warranty to June 30 2021 for those with expiry between April 1 2021 and June 29 2021.
3. Due to the recent developments beyond our control, there will be delay in delivery for recent product orders in certain locations and we are unable to fulfil the order, at present. Unfortunately, we cannot predict the delivery of your order, however we will ship the order as soon as possible from our end once restrictions ease.

Thank you for the support and stay healthy.

Never Settle
